## PREFACE

Section 5(1)(d) of the Universities Act, Cap. 346 of the Laws of Tanzania gives mandate to the Tanzania Commission for Universities (TCU) to collect, examine, store in database or databank and publish information relating to higher education. In recognition of this mandate, TCU has been publishing statistics on university education in Tanzania in order to inform various stakeholders (such as the Government, students, parents, employers, the general society, etc.) on the state of university education in the country.

Considering the fact that good decisions are made on the basis of data, TCU has been publishing higher education statistics on various aspects including trends in admission; student enrolments disaggregated by various parameters including sex of students, field of education, institution ownership (public or private) and award level; number of graduates also disaggregated by several parameters; students' dropout by reason of termination of studies; programmes on offer; and number of academic staff.

This publication on vital statistics is a series of publications that are produced by TCU from time to time. Other similar publications include the *State of University Education in Tanzania 2018*, which was produced in 2019, *Vital Statistics on University Education in Tanzania 2019, 2020* and *2021* which were published in 2020, 2021 and 2022, respectively. The *State of University Education in Tanzania 2018* was based on data collected during the 2017/2018 academic year covering a span of five years.

This publication has been produced in order to provide vital statistics on some aspects of university education in Tanzania that have not been provided in details in the *State of University Education in Tanzania 2018* or any of the already published vital statistics on university education. Thus, this publication is meant to address the challenge experienced by stakeholders in obtaining some important statistics on university education in Tanzania to inform decisions at various levels. However, unlike other publications on vital statistics such as *Vital Statistics on*

*University Education in Tanzania 2019, 2020, 2021 and 2022*, which cover a broad range of aspects, the present publication is limited to vital statistics on students' admission, enrolment, graduates and dropouts in university institutions. Statistics on students' admission, enrolment, and dropout are for the 2018/19 academic year, while the statistics on graduates represent students who graduated in 2018, and list of universities, colleges, institutes and centres represent those which were available until December 2018.

This publication has been made possible due to concerted efforts of various TCU staff. In particular, I express my appreciations to Dr. Kokuberwa Katunzi-Mollel (Director of Admissions Coordination and Database Management); Dr. Telemu Kassile (Director of Accreditation); Mr. Augustine Swai (Principal Computer Programmer); and Mr. Mathayo Mafang'ha (Quality Assurance Officer).

Prof. Charles Kihampa  
**Executive Secretary, TCU**

**Admitted students:** means students selected to join a particular programme in Higher Education Institutions.

**Campus college:** means a non-autonomous governance unit within the premises of or in close proximity to a university established by a legal instrument of a university.

**Discipline:** means a branch of knowledge, skills and competences acquired through teaching or learning at university or professional level

through specific programmes. A discipline usually has most, if not all, of the following attributes:

- a) a particular object of research (e.g., criminal law, robotics, etc.);
- b) a body of accumulated specialist knowledge, skills and competences which may be acquired through learning, research, and work-related activities;
- c) theories or concepts arising from organising the specialist knowledge, skills and competences in the field of study; and
- d) specific research methods, techniques, language/terminology, work procedures, application of technology, innovation and related sciences.

**Enrolment:** means the number of students registered in a particular programme in Higher Education Institutions.

**Higher Education Institutions:** in the context of this document means University institutions and Middle-level Tertiary institutions offering Bachelor degree programmes.

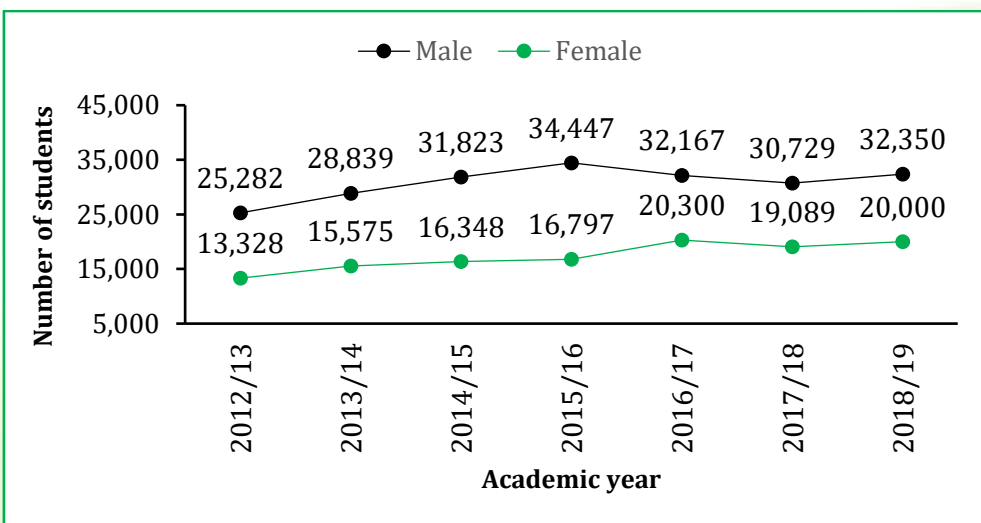

**Programme:** means a curriculum of studies that leads to some form of recognition through an academic, technical or professional award in a discipline.

**University:** means an institution which offers a level of education and training that leads to intermediate and full academic or professional qualifications and competence namely certificate, diplomas and degrees.
